Who we are

AOT and Focus & Partner has founded **BalkansRisk** Associates, the largest reality in professional investigative and security services to companies engaged in the triangle Switzerland, Italy and the Balkans.

Combining quality experience with innovative methodologies and technologies, **BalkansRisk** is the ideal partner to support the company in foreign activities and specifically, in the Balkan region.

BalkansRisk arises from the demand for high-profile services in a very complex area and marked by an ethnic mosaic, in which each country has its own minorities characterized by linguistic and cultural differences. Within the same country it is easy to find areas where customs, language and religion vary significantly even within a few kilometers.

It is fundamental the excellent knowledge of the territory, of local customs and customs, to approach with the correct mode of relationship.

Why choose BalkansRisk?

The experience in foreign theaters, even in areas at high risk of social instability and conflict, has allowed AOT and Focus & Partners to create an international working group able to give the customer the best service available on the market.

Rely on **BalkansRisk** for the solution to the critical performance of insurance claims, through a productive and methodical approach to achieving your goal.

BalkansRisk allows you to have only one interlocutor, aware of your needs, who works with professional, certified and experienced staff of the highest level.

BalkansRisk saves you time and money.

Areas of intervention

Support in the investigative activity in the fight against insurance fraud, through a network of high-profile partners. Almost all of the partnership's members come from elite police departments with experience in organized crime and intelligence.

Support in the economic-financial and financial analysis activity through Due Diligence of a potential foreign counter-party, also aimed at identifying possible synergies in case of a partnership.

Dedicated close protection and risk assessment services.

Modus Operandi

Because of the difficulties and complexities in the execution of services, each activity will be analyzed and once verified the feasibility, will be presented a quotation with the costs and the execution times.

Focus on Switzerland

In Kosovo, Serbia and Montenegro, Focus & Partners is able to provide observations regulated by the Swiss social insurance.
